- Analyze the user's requirement
- Ui/Ux Design
- Front-end Development

28th DEC 2022 TO 13TH JAN 2023 | **WEBILICIOUS**

#### Key responsibilities:

- Front-end Development
- FireBase Authentication

## ✂ PROJECTS

### CYBERNATED ATTENDANCE SYSTEM

- Developed an efficient and accurate attendance tracking system leveraging facial recognition technology, eliminating the need for manual marking and reducing errors. Improved class efficiency, ensured real-time attendance data, and promoted an eco-friendly environment through paperless operations.

### JOBIFY

- Jobify revolutionizes the job search process by offering a user-friendly mobile app with advanced features such as personalized job recommendations, easy job application submission, and instant notifications, making it effortless for both job seekers and employers to connect and find the perfect match.

### RURKET

- Rurket is an innovative marketplace app that brings together rural artisans and potential buyers, empowering local craftsmen to showcase and sell their unique handmade products while providing consumers with a platform to discover and support authentic rural craftsmanship, fostering sustainable economic growth in rural communities.

## Domain Of Interest

- Front-End Development
- Ui/Ux Design
- DSA
- DBMS

## Professional Summary

- I am looking for an exciting and dynamic work environment where I can add value to the organization and enhance my skills and knowledge. Fast-paced settings are where I thrive, and I am eager to take on new challenges that will enable me to develop both personally and professionally.
